## **PROCOUNTOR FINANCIALS – PRICE LIST**

### **MONTHLY FEES AND VOLUME PRICES**

Here's how our pricing works: First, select a feature level package that aligns with your needs, then estimate your number of vouchers. The combination of these two choices creates the final price for the package. If your usage exceeds the estimated volume, you will be billed for the excess at a price per unit.

Additionally, there are sending and receiving fees based on the chosen channel for sending or receiving the invoices. These fees are detailed in the 'Sending and Receiving Fees' chapter.

#### **What is a voucher?**

The number of vouchers in relation to the monthly package's scope is calculated after the calendar month in which the voucher was created. The vouchers include customer and supplier orders, sales and purchase invoices, travel and expense invoices, records, tax calculations, declarations and payment reminders.

Valid from January 1st, 2024  
VAT 25% will be added to all prices
